

We support the united members at Heathrow Airport

Solidarity greetings to the workers at Heathrow Airport from the shop steward committee of Copenhagen Airport.

We support your struggle. In Denmark we have also found ourselves under attack from a number of our employers. This concerns wages, working hours, pensions and several gained rights.

Airports are a vital part of modern infrastructure and therefore important work in society. The work we do must be on living wages and proper working conditions.

We understand and fully support your action!
